Johan Fostier / artistic approach.

A committed, lyrical and infinitely colourful guitar playing in which a deep love for singing prevails and stands out. Besides, he enjoys accompanying sopranos and other mezzos, whereas his singing education makes him join the Wappa Tonic vocal quintet! His playing casts a powerful and generous musical discourse made possible by a body-instrument relationship seeking for increasing harmony and freedom.

A university- educated linguist, interested in words, he has also collaborated with several comedians and directors, which diversified and enriched his perception of the stage.

Finally, his sovereign and ever-linked with music technique enabled him to win several international competitions ( among which the prestigious Guitar Foundation of America). He performs throughout the world as a soloist and chamber musician (Take Four Guitar Quartet, Almaviva Duo...) and in the most famous concertos for guitar; his tours took him to Russia, the United States, Canada, Germany, France, Italy, Switzerland, Spain, Morocco, Estonia, Afghanistan... He feels tankful to Alberto Ponce and Susanne Mebes for their precious teaching / [www.johanfostier.com](http://www.johanfostier.com)
